

Box Turtle Feeding Frenzy

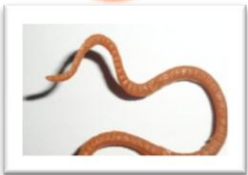

Objective: Participants learn about the diverse diet of the Box Turtle as they actively pursue different items, watching out for predators and other hazards!

How to Play: Participants line up outside the play area and are instructed to “walk like a turtle” on their hands and knees to capture one of each food items and complete their menus. Predators such as Raccoons, foxes, owls and snakes can be added as other participants or just obstacles. Another participant can be given a net and be a collector for the pet trade. A road with cars can be placed as obstacles as well.

Caterpillars: placed on leaves

Worms: placed under bark or logs

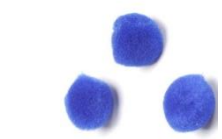

Frogs: placed in a pond or on road

Strawberries: placed in grass

Insects: placed on bark or logs

Blueberries: placed in grass or twigs

Fish: placed in a pond

Mushrooms: placed on bark or logs
